| Phone | 715-205 9380 |
| Email | aeroqualite@yahoo.com |

Q5. Website

aeroqualitemaintenance.com

Please enter the following applicant information

Q6.

| Field label | Response |
|-------------|----------|
| First Name | Otieno |
| Last Name | Oduor |

Q7. Phone Number

7152059380

Q8. Please enter your email if different from business email

aeroqualite@yahoo.com

Q9. Please tell us about your business. Please be as specific as possible. If the form does not have enough space, please email additional pages to info@50peoplewhocare.org

Please include things like; type of business, number of employees, local suppliers used, what makes you unique or essential to our community.

I own an aviation maintenance business currently renting a space at the Burnett county airport. This aircraft business started in France in 2006. I want to move my business to the Cumberland Municipal Airport. I live in Cumberland since 2016 when we moved as a family from France. I am on the process of buying a hangar at the Cumberland airport which will need to be insulated and an addition for office space, parts room and bathroom added. I currently have one employee full time and several young students coming in to learn the trade. I am a certified FAA aircraft mechanic. I am also the secretary of the Cumberland airport committee (formerly airport commission).

Other expenses that are immediate besides the hangar purchase, insulation and addition will also be the relocation of a transformer box to give room for the addition. This has been quoted by Barron Electric at \$2695.00. I am hoping to hire a couple more young people if I can get this business up and running at the airport in Cumberland.

Thank you for considering my application and I hope to hear from you soon.

Otieno Oduor

Owner

AeroQualite Maintenance

Q10. What is the plan for using the grant money (How will it be used)?

I would use the grant to improve the hangar. The hangar needs to be insulated and heated before the winter. Currently there is no insulation in the hangar. Also the transformer just behind the hangar will need to be moved to allow for the addition. I would also need to add to the hangar. The hangar can only accommodate 2 aircrafts at a time. I would eventually need more space to accommodate more aircraft and therefore more jobs for our community.

Q11. Projected benefit of plan execution (e.g. viability of business, growth/expansion of business, impact on the community, etc...)

This will provide more jobs to the community. I plan to hire one or two more mechanics. I also have one student from the Cumberland school that has asked to work and learn the aircraft maintenance job from me. It would also bring in more customers (aircraft owners) to our community. These aircraft owners in turn would bring business to our restaurants, motels and other local businesses. I currently have customers coming in from the Minneapolis area and even as far as from Chicago area.
