Email	jcdservices1@gmail.com

Q5. Website

www.jcdcumberland.com

Please enter the following applicant information

Q6.

Field label	Response
First Name	Jamie
Last Name	Black

Q7. Phone Number

7154192352

Q8. Please enter your email if different from business email

jcdservices1@gmail.com

Q9. Please tell us about your business. Please be as specific as possible. If the form does not have enough space, please email additional pages to info@50peoplewhocare.org

Please include things like; type of business, number of employees, local suppliers used, what makes you unique or essential to our community.

JCD Services offers a variety of services to our customers. The primary service is automotive and marine repair. Additionally, the business is a authorized U-Haul dealer and provides installation and maintenance of ignition interlock systems (devices installed in vehicles to prevent intoxicated driving).

JCD Services takes pride in being a contributing part of the Cumberland community by supporting local activities such as youth sports, Back the Blue and the Cumberland High School Work Release Program to provide an opportunity for kids to learn mechanics.

JCD Services utilizes several local suppliers including Auto Value and George's Ace Hardware for parts and accessories. We stive to support local businesses within a 15-mile radius.

JCD Services is unique in that it provides specialized services that are not available elsewhere in the community in addition to the primary auto and marine repair business. It is the only U-Haul dealer in Cumberland and provides a local place for community members, so they do not have to travel elsewhere. The three ignition interlock options which JCD Services offers are the only ignition interlock companies in Cumberland.

Q10. What is the plan for using the grant money (How will it be used)?

JCD Services has been a staple in Cumberland for 18 years and has added additional unique services to community members. JCD has worked hard to keep prices affordable for customers, resulting in the business not having resources to update bathroom facilities.

This grant would help support the addition of a restroom facility that would be ADA (Americans with Disabilities Act) compliant. Currently, the only restroom available to customers is a port-a-potty, which is not ADA compliant. This current situation is not ideal and includes additional costs for the business.

The project would be completed using several local businesses and provide long-term savings and better experiences for the customers. The improved facility would have the opportunity to provide additional services to customers, which will improve the local business community overall.

Q11. Projected benefit of plan execution (e.g. viability of business, growth/expansion of business, impact on the community, etc...)

The benefits of the plan execution would have a significant impact on the long-term success and growth of the business. Having the improved facilities will bring additional business and keep customers in the local economy. Long-term the goal is to have a facility that can provide a variety of services to customers, which improves the Greater Cumberland community overall.
