Please include things like; type of business, number of employees, local suppliers used, what makes you unique or essential to our community.

We are a fireplace store that specializes in selling, installing, servicing, and cleaning all types of fireplaces and stoves. We have four full-time employees, and the owner (Joseph Brown) that work to meet the needs of the surrounding people. We work with local businesses to provide us with materials needed to install the units that we sell, and other needed items. We are a necessity to not only the local community, but communities up to 70 miles away in providing a heat source and safety to our customers.

Q10. What is the plan for using the grant money (How will it be used)?

We need to update half of our store with new products to showcase to customers. We also need new paint, flooring and signage to freshen up the store. We are interested in bringing in a few wood fireplaces and a see-thru gas fireplace to have available for our customers to see what they are buying.

Q11. Projected benefit of plan execution (e.g. viability of business, growth/expansion of business, impact on the community, etc...)

Kindled Hearth Fireplace Store is a business that will continue for many years to come. As long as there are people who have fireplaces and stoves that need servicing, parts, and cleaning we will be here to help them. Since the closing of Kilmers in Rice Lake, and the Chimney Mann's Cleaning, our growth has expanded greatly, and will continue to grow in the following years. We create an impact on people throughout the areas by providing them with a sense of relief when they know that their fireplace and stoves are in safe and working condition for the heating seasons. We also provide people who don't have back up heat with a source of staying warm in the colder seasons.
