We purchased Roosevelt Hills in the fall of 2025. Roosevelt Hills had been operating as a wedding venue prior to us purchasing it. While weddings are the main focus, we purchased it to also create space for local friends, family, and neighbors to gather. It once hosted community hay rides, seasonal get togethers, and community space. Our plan is to bring that back with the addition of ticketed events. We have already started hosting classes with local owners / operators of other small businesses in the area. We host chef driven pairing dinners where we have teamed up with Clarity Wines in Spooner, WI to create a space to gather both local friends and new friends from as far as Michigan. The historic schoolhouse is currently being remodeled and we are working on getting it winter "ready" which would allow us to host winter holiday events as well. We currently have a team of local family and friends of 5, but hope to add another 2-4 next year. With our liquor license and offerings we have been working to keep our selections vary local. We offer local wines, beer, and spirit's. We also run a farm to fork catering company, our company values are all things local and we plan to continue that at Roosevelt Hills as well. Our goal is to host retreats, local business leaders events, community gatherings, classes, and so much more. Currently we offer our space for use for FREE to any community member looking to fundraise or host a class that is open to the public. We currently work with a local marketing firm and will be launching our FREE wedding competition. It is an essay skilled based competition that will be judged by a panel. We can't wait to share that with the community and our followers. Our intent is to offer a chance for the perfect couple to win their dream wedding at Roosevelt Hills. Also, our goal is to preserve the schoolhouse and what's remaining of the 16 acres of the old tree farm.

Q10. What is the plan for using the grant money (How will it be used)?

I would like to use the money to help update the foundation of the building and possibly the windows. The building is beautiful and rich with history. We have people from all over stopping to tell us about their days there as students and share all their wonderful memories. New windows and foundation work would greatly increase the possibility being able to keep the building stay open into December, which would create opportunities for additional community gatherings. We have discussed also putting in a pellet stove to help with heating. If those costs are not reasonable our next move would be to use the grant money to build an outdoor woodfire kitchen that would allow us to open the space for more chef driven ticketed dinners at teh schoolhouse on the walking trails set in the pines.

Q11. Projected benefit of plan execution (e.g. viability of business, growth/expansion of business, impact on the community, etc...)

With upgrades to the schoolhouse and or an outdoor kitchen space, that would allow us to host events for an additional 4 months a year. With the winter availability we would be able to host smaller weddings in the school house that would bring people to the area looking for hotels, places to eat, and shop at. Our ticketed events would increase with the use of the schoolhouse into the winter season as well. We currently partner with local photography companies for photoshoots, winter photo's are amazing. Christmas celebrations, tree decorating, etc. It would help increase our overall yearly sales by 30%. And allow us to continue to grow and eventually have the schoolhouse open year-round.
